imagePRESS Server M20
Fiery FS500

Get the most out of your Canon imagePRESS C265/C270 printer by combining it with the imagePRESS Server M20, to deliver high quality output with exceptional productivity.

- With the innovative Fiery ® FS500 software, productivity is taken to its maximum expression with a combination of processing power, management and automation tools to take the most out of your printer.

- Increase your production, reduce errors, plus make job management faster and more efficient with Fiery Command WorkStation®.

- Use server presets to make job submission fast and error-free. Or add the optional Fiery Automation Package to reduce job touchpoints and make your workflow even more efficient.

- Use the Fiery TrueBrand® application to print accurate brand colors from Microsoft Office applications in just a few clicks. No advanced color knowledge required!

- The new optional Fiery JobExpert and PDF Processing Kit automatically sets the optimal job properties to achieve the highest print quality with the minimum processing time along with native processing of PDF files with Adobe PDF Print Engine.

- Offer personalized printing with the Fiery FreeForm™ Create. Quickly personalize existing files by adding variable elements such as text, images, or barcodes with just a few clicks.

Fiery Driven™ engines

- Canon imagePRESS C265/C270

Hardware and platform
